

Environmental projects wanted!

Apply for the Energy Globe Award
 Deadline: 21 November
www.energyglobe.info

The banner features a central image of a hand holding a globe with the word 'ENERGY' on it. To the right is a 3x3 grid of nine small images illustrating various environmental projects: a wind farm, a water treatment tank labeled 'TELLIVIS', a group of people in a park, yellow taxis, a recycling bin, a woman at a water tap, a power plant, a child drinking water, a school building, and a group of people sitting on the ground. The bottom row includes a person working in a field, a modern building, a child holding a bird, a person on a balcony, and a group of people walking.

Energy Globe Award: Participate in the largest environmental award!

Energy Globe Award annually honors outstanding, sustainable projects in the field of environment and energy. The award is presented **nationally** in more than 180 countries, as well as **internationally** in 5 categories: Earth, Fire, Water, Air and Youth.

With applications a year from more than 180 countries, Energy Globe Award has become the largest environmental prize worldwide. The international category winners are awarded in a ceremony which is broadcasted all over the world, receive a total of 10,000 Euro as prize money and are in the spotlight of international media coverage.

Projects with a focus on the conservation of resources, improvement of air and water quality, energy efficiency, use of renewable energies, recycling or creating awareness for these areas can be submitted.

Have you been part of an exciting environmental project?

We would kindly like to invite you to submit your project for the Energy Globe Award 2020. All information about the award and the application process is available at www.energyglobe.info. The application can be submitted in English or German and is free of charge.

Do you know anyone, who has implemented an amazing environmental project?

Tell them about us and encourage to apply for the award.

Let us inspire people by showcasing the best practices!

Put a spotlight on your sustainable project!
